### POULTRY NEWS

The annual meeting of the Poultry Association was held on Monday the 15th inst. The members present had come to hear the report for the past year and plan for future work. The meeting was one where each one present was in a progressive mood so that each did his part, or her part, to aid advance along the lines for which the association was formed—the betterment of the poultry industry in the district.

The annual report referred to the fact that just a year ago the need of such an association became felt and amid some discouragement as to the question of obtaining results obtaining results aimed at, a beginning had been made and the results obtained had passed anticipation. The aim of the association was not that a few might show birds at a poultry show, but that the betterment of the whole industry was to be the leading thought. The desire for such an association was evidenced by the number enrolled, the total membership for 1920 numbered 83. It is the intention to have more than double that number for 1921.

The Poultry Show in February last brought 132 entries, 266 birds with 33 exhibitors. \$243.95 was distributed in prizes.

The success of the utility class, that is birds that are judged principally for their egg laying, though some regard was shown to nearness to type exhibited, was so marked that it is the intention of the association to still further feature this desirable class by making prizes offered more valuable and extended.

The judges, Mr. P. J. Timms, of Calgary, and Mr. G. M. Cormie, the Dominion Poultry representative for Alberta, of Edmonton, gave entire satisfaction with their judgments and their courtesy in giving the reason for their choice was appreciated by those who took advantage of their superior knowledge. The association is to be congratulated upon its enterprise in securing such expert knowledge for their show.

Mr. Cormie arranged to send a representative to inspect the farm flocks and Mr. E. Nash, Poultry Inspector for B.C., spent about two weeks in the district inspecting the flocks and culling out the undesirables. His work was very much appreciated by those who took advantage of the service offered and arrangements are now under way to have the same inspection earlier next spring that pens for egg production may be mated early in the season that the 1921 chicks may come from selected egg producing stock.

The Poultry Department of the Agricultural Society's Summer Fair was in charge of the Poultry Association and was one of the outstanding features. Mr. S. A. Bergey, from the Poultry Department of the University at Edmonton, judged the birds. He also helped the poultry industry in the district by his advice and instruction.

The first year's work of the Association has created a greater interest in the poultry side of the farm. The standard for poultry among most of the members has been raised. Many have taken advantage of the advice and assistance of the experts provided to get better mateings to produce more productive hens. The advisability of having only one line in place of the average mixed flock has been demonstrated.

It was resolved to hold the Poultry Show at the L.O.O.F. Hall about the 10th of February. Expert judges will be secured to judge type and production. Exhibition coops will be available. Besides specializing on utility birds, a new class will be called for. This class is to be for home raised birds and it is intended to make this a valuable class when the details of the classification have been formulated, full particulars will be announced. Some of the sections shown last season will be divided into two sections, single and rose comb, where such is admissible. A tentative prize list will be published soon and suggestions invited for the making of new classes. To accomplish successfully what is intended, an increased membership is necessary to provide funds for the carrying out of the plan outlined. The lowest number necessary is 150, but it is hoped a larger membership will be secured. The membership fee is \$1.00 for 1921, and this entitles to admission to the show and free entry for birds exhibited. To obtain the requisite members the officers for the Association have each pledged themselves to secure 10 members. The outlook is hopeful, for it is expected the directors in their plans by joining at an early date.

Any of the officers will be glad to supply membership tickets.

The following were elected to office: Hon. President, Rev. A. E. Hayes; President, D. L. Doane; Vice Presidents, A. R. Kitto, F. M. Anderson; Directors, Mrs. A. Larson, Messrs. W. B. Allan, H. Brown (Ensign), E. J. Charters, E. R. Finch, E. G. Gossett (Kirkcaldy), D. C. Jones, F. A. Kothlow, J. Miller, E. E. McIntosh, E. G. McPherson; Secretary-Treasurer, J. A. Lindsay.

### BOX SOCIAL AND DANCE

On three occasions during the past three weeks a dance has been held in the L.O.O.F. Hall, each of which has attracted large crowds. The last two of these popular events have been held for the benefit of local organizations, namely, the Ladies' Curling Club and the Vulcan Band. An organization, the Curling Club is very popular and received the support of the majority of the townspeople as well as that of the people of the surrounding districts when they put on their dance a week ago to raise funds to enable them to carry on the good work of providing sport for others as well as themselves during the winter months. This popularity is also shared by the band boys as was demonstrated on Friday evening when about three hundred people attended the old fashioned box social and dance held for their benefit in the L.O.O.F. Hall, and to say that all had a good time is to put it mildly because everyone had a roaring time, especially during the old time dances when the laughter and shrieks of the dancers intermingled with those of the M.C. as he directed the different phases of the square dances, which, although not indulged in so much these days, seem to be just as popular as they were a few years ago and the crowd was kept in this hilarious condition until 12 o'clock when a rest was called to enable the auctioneer to dispose of the boxes provided by the ladies.

This feature of the entertainment was highly satisfactory both from a monetary standpoint in regard to the band and also as a means of providing an excellent supper for the purchaser and donor. The ladies sure did their part in this connection, not only in the quantity, but in the quality of the contents and also in the beautiful manner in which some of them had been prepared, and Auctioneer C. C. Rebbe had no difficulty in disposing of the large assortment, which numbered fifty-six, to anxious buyers. The highest price paid for one of these confectionery stores was \$7.00, the lowest 50c., and the total amount realized from the sale was \$129.00.

An adjournment was then made to the basement for supper when all the good things provided by the ladies were sampled and many were the congratulations offered the fair sex regarding their abilities as cooks.

Supper over, dancing was again resumed and kept up till about two-thirty, when one of the happiest crowds to assemble in the hall broke up and wended their several ways home.

The Band boys are delighted with the success of the dance, both financially and otherwise, and wish to thank all ladies who donated boxes for their kindness and assistance which enabled them to raise, after all expenses were paid, the magnificent sum of \$164.00 for the band fund.

### WRESTLING MATCH

The second wrestling match between Bud Brooks, of Falls City, Nebraska, and Gordon Saunders, of Vulcan, took place in the Opera House on Wednesday evening. Owing to the lack of time at their previous meeting no decision was obtained. Each man showed good form and seemed to be fairly evenly matched and their second match to a finish was looked forward to with interest as it was expected a good exhibition would be put on.

In this the large crowd in attendance was not disappointed and although they did not get as much for their money as on the previous occasion it was offset by better and snappier work. Each man had trained well in the interval and stepped on the mat in good trim and showed they meant business from start to finish.

Time was called at 9 o'clock when referee Dortsch introduced the men, who immediately came together for the first fall. Some fast and pretty work was done by each but eventually the greater skill of Brooks proved too much for Saunders, who being in a pretty tight scissors' hold and no chance of extricating himself, gave up the fall to Brooks. Time 8 minutes.

The second spasm opened up at a lively pace and Saunders showed his strength by tumbling Brooks around pretty freely. Brooks stood up to it well, however, but finally went under and lost the fall. Time six minutes.

The work of both men in the third and deciding round was very good and each had several opportunities over his opponent which failed to materialize.

The superior knowledge of the game which Brooks possesses, however, finally prevailed, and after working him man for a little while got another good hold which proved to be Saunders undoing and won Brooks the match. Time twenty minutes.

An exhibition bout between Henry Dortsch and Ole furnished those present with plenty of amusement while waiting for the main feature, but taking into consideration they are only new at the game they did very well and showed the dormant ability each possessed waiting to be developed.

### TAKEN OVER PRACTICE

Dr. D. R. Wark, who has had charge of the Tubercular Hospital of the Soldiers Civil Re-Establishment at Wetaskiwin for the past year, arrived in Vulcan last week and took over the practice of Dr. A. O. Brown, who is leaving shortly for Vancouver. The Doctor is a returned man and served overseas for two years and six months with the 24th Infantry Regiment and 5th Field Ambulance. He has bought Dr. Brown's house and office fixtures and will carry on in the same place.

### McDONALD—SMITH

Married, on Wednesday, November 17th, at Grace Presbyterian Church, Calgary, by Rev. J. Laverie, Mary, daughter of Mr. and Mrs. John Smith, of Vulcan, and Harry Lambert McDonald, of Carmangay.

Mr. and Mrs. Jennejohn motored to Calgary on Tuesday last and spent a few days visiting with friends.

Mr. Charlie Steiner is now the proud possessor of a brand new Ford car purchased from Mr. Jennejohn.

Capt. Cartwright, of Lake McGregor, was a Calgary visitor for several days last week.

### LOCAL ITEMS

The "Vulcan Pierriots" at the Opera House, Friday, December 3rd. Keep the date open.

Men's All Wool Sweaters at big reductions at Spooner's.

Mr. Roy Ferguson was a business visitor to Calgary for several days last week.

Dr. and Mrs. D. R. Wark, of Wetaskiwin, arrived in Vulcan on Monday last and have taken up their residence in the house formerly owned by Dr. A. O. Brown.

Mr. W. J. Robson is the proud possessor of a brand new Essex car which he purchased recently in Calgary.

Mrs. McQueen, accompanied by her daughter Verlie, left for Rochester, Minnesota, on Tuesday, where Mrs. McQueen will undergo an operation.

Mr. Percy Williams, of Cluny, motored to Vulcan on Saturday and spent the week end the guest of Mr. and Mrs. McQueen.

We carry a big line of lined gloves and mitts at prices to suit the pocket. Spooner's.

Rev. Allyn Bradshaw, of Okotoks, spent the week end in town and conducted the Church of England services on Sunday in the L.O.O.F. Hall.

Don't forget the Vulcan Pierriots in the Opera House on Friday, December 3rd. The company is composed of all local talent and a real good time is promised.

Miss Verlie McQueen, of Vancouver, arrived in Vulcan on Tuesday last on a short visit with her parents, Mr. and Mrs. McQueen.

Rev. Mr. Burnett, of Crescent Heights Baptist Church, Calgary, will preach at Reid Hill Baptist Church on Sunday, December 12, at 12 noon. Everybody is cordially invited to attend.

Mr. Gordon Hanna has returned from a two weeks hunting trip 100 miles north of Edmonton. A good time was had and the bag consisted of one deer.

Mr. A. G. Dickenson, who has been spending the past few weeks at Vancouver, returned home on Thursday last.

Don't forget the Entertainment at the Opera House on Friday, December 3rd, when the "Vulcan Pierriots" make their bow to the people of town and district.

A Shower in connection with the Bazaar to be held by the Ladies' Aid of the Vulcan Community Church will be held at the Manse on Thursday next, November 25th, at 3 o'clock. After the Shower a business meeting will be held and all the ladies of the congregation are invited to be present.

Having rented his farm, Mr. D. Robinson, who lives five miles west and seven miles north of Vulcan, is selling all his farm stock, implements and household furniture at his place on Thursday, November 2nd. C. C. Rebbe is to be the auctioneer. See advt. on another page and posters for particulars.

Men's Corduroy and Moleskin Pants—the kind that wear well—A. G. Spooner.

The Vulcan Poultry Association is to be congratulated upon the success of one of its members, Mrs. J. A. Lindsay at the Alberta Provincial Poultry Show at Calgary this week with her White Wyndotted. In this class there were over 250 birds and Mrs. Lindsay took 1st, for pen (1 male, 3 females) and 1st and 5th for hens. This is what being a member of the Vulcan Poultry Association brings—Join now.

Mr. R. J. Cardinal, bookkeeper for the Home Grain Co., at this point, received a telegram from Winnipeg on Saturday last informing him that his mother had been seriously injured in an automobile accident. This was followed by another stating that the injuries received were likely to prove fatal and asking him to come at once, and Mr. Cardinal left on the evening train.

### REGARDING THE PRICE OF WHEAT

H. W. Wood, who has been in Winnipeg on matters of importance in connection with the farmers interests returned to Calgary so on Monday last and he stated that he had no word from Ottawa that the government purposed taking any action with the marketing of the remaining portion of this year's wheat crop. As matters stood at present the farmers were absolutely at the mercy of foreign buyers. They had already beaten the price down to \$2 a bushel and there was no guarantee that it would not even go lower.

In reply to a question Mr. Wood stated that the total value of the participation certificates in connection with last year's crop was 48c. This, he said, would bring the value of the 1919 wheat up to \$6.63 a bushel Port William basis.

Mr. Wood remarked that he had noticed on his recent trip that there was an unanimous protest amongst farmers who allege the difference by the government respecting the protection of their interests this year. There was an undoubted disposition amongst many of the farmers to hold their wheat but what the outcome of this would be was problematical in face of the fact that there was no central selling agency. "As matters stand at present," he said, "Canadian agriculture has been given such a blow from which it will take years to recover."

The president of the U.F.A. added that he did not see any reason to hope that the government would do anything in the matter now of re-establishing the wheat board or fixing a minimum price of wheat. "I have not the slightest information," he said, "that the government intend doing anything in the matter at all."

### THE RICH MAN AND TAXES

Otto H. Kahn, in November Forum: It may be said, "Well, supposing a man with a very large income is made to pay up to three-quarters of it in taxes. He still has plenty left." Granted—but that is not the point. The point is not what happens to the rich man—he can protect himself—but what is the effect upon the country? Capital for business or for corporate investments is a necessity for the upkeep and expansion of trade and industry. And it is out of the annual savings of the individual, after meeting living expenses and taxes, that the means are provided for that necessity. Excessive surtaxes accomplish double harm: They greatly diminish the incentive to thrift and they appropriate to an undue extent the means which ought to be available for industry and enterprise. And those means are more than ever needed at present, first, because the world is urgently in need of increased production after nearly five years of underproduction during the war, and, secondly, because merely to do the same volume of business as before the war a great deal more capital is required nowadays, owing to the largely increased cost of labor and materials.

### THE MARKET FOR CANADIAN WHEAT

The removal of government control over the wheat market and of restrictions on the importation of sugar have directed public attention more closely to the fact that Canada is returning to normal conditions. It is contended by the wheat growers that from the stand-point of the law of supply and demand there is absolutely no reason why the price of wheat should be lower to-day than a year ago. The only reason why it is lower, as urged by one of their spokesmen, is "the inefficiency in the selling of wheat this year. Great Britain and other nations are working together and acting in an intelligent manner to get their wheat at the lowest possible price, whereas Canada and the United States, as selling nations, are taking no intelligent action whatever to get the best possible price."

The attitude of the government, however, has been made quite clear. In declining to re-establish control over the marketing of wheat this year, the Minister of Trade and Com-

merce directs attention to the change in conditions. Last year a lack of money made it necessary for most European buyers to seek advances from the exporting countries in the form of loans or credits. This situation and the pooling of their requirements by European governments virtually eliminated free buying. This year, however, the grain exchanges are working, and there is independent buying by a number of countries. Under those normal marketing conditions, and following heavy deliveries during October, prices of all grains weakened appreciably.

### THE FORWARD MOVEMENT

The war has brought a new spirit and meaning into many old words. The blood runs warm when we hear the words courage, endurance, sacrifice and freedom. Among the words too that has been vitalized by the war is the word faith. Along with hope and love it is one of the vital, imperishable words. Faith is needed in every walk of life. It insures the happiness of domestic life; it is essential in medicine, agriculture and commerce. It is the vanguard of all scientific achievement and lies at the basis of all international peace and well-being.

It was the faithlessness of Germany that caused the slaughter of Belgium. It was the faith-keeping of Britain that led her to defend Belgium. Rather than prove faithless to Belgium, Britain fought. Hers is the faith that fights.

In any great cause for human good, the one determining question whether the people have enough faith in the cause and its ultimate triumph. Without that faith any campaign will collapse. Great leaders of the nations look for one thing from the people, namely, faith and confidence.

It was in the spirit of faith that Britain went forth to fight. It was this spirit that dominated France and America. Never in the darkest hour of the war, when all things seemed against us, did the spirit of the people waver. The Germans might take trenches, capture prisoners and sink ships, but they could not capture the Allied indomitable spirit of faith and confidence in the final issue of the war.

Faith also deals with the future. It believes in the possibilities of the future. The Forward Movement is a movement that has faith in the Dominion of Canada. It is translating the word faith into a vital experience. It is inspiring men to give in times of peace what all are willing to give in the delirium of war—that is to say themselves and what they have.

Public spirited men this week will call on you for your donation towards the National Peace Thankoffering, which is to play so great a part in the nation's life.

Lethbridge was asked for \$5,000. It has subscribed \$10,209. Nobleford was asked for \$600 and it went over the top with 2,250. Taber gives \$2,000, High River and Okotoks send word that they will reach and pass their allotment. Vulcan will surely exceed its allocation of \$1,500.

### A SENSIBLE VIEW

Quite recently Sir William Meredith, who was at one time leader of the Tory party in Ontario, when Sir Oliver Mowat was in power, and who is now a Judge of the Supreme Court, expressed the view that, when a person is charged with a criminal offence and honorably acquitted, he is entitled to be compensated by the Crown. Sir William's position has been sharply challenged, but it must appeal to the average person as sensible and just. A person who is brought into court on a criminal charge and who eventually is quit clearly shown to be innocent, undergoes an experience which must affect him seriously—in the average case at least—in a variety of ways. His final acquittal should not be considered as clearing the slate. He is entitled to some compensation besides.

### BOOZE DELAYS TRAINS

"The whole express system is wrong. The express business has developed into fast freight on passenger trains. It is about time we viewed the situation squarely. Most of the time the trains are late it is due to unloading freight from passenger trains."

Such was the opinion expressed by Hon. F. B. Carvell, chairman of the Railway Commission, at a session held at St. John, N.B., recently, to hear arguments for and against the proposal to give the express companies a 40 per cent increase in rates. Mr. Carvell said he knew that fruit and liquor came by express trains and he had often been delayed by the unloading of "fruit and booze," particularly liquor, and he expressed the opinion that the rate should be put up four times on the liquor rates.

## Beaver Alberta Lumber Ltd.

In Your Town

Vulcan Agent—John Dewie

Kirkcaldy Agent—A. D. Park

Britain was in the market for Canadian wheat was a matter for gratification. Mr. Bogert said, while Belgium, France, Switzerland and Spain had already been buying, the effect of these sales was just becoming apparent, and although no material reductions had yet been made in the ordinary commercial loans, gradual improvement should take place during the balance of the winter.

### DECLINE IN PRODUCTION

(From Kincaid Review.)

The man who says that the manufacturers are cutting down weeks and days so as to produce production and maintain prices would probably revise his judgment if he went out and endeavored to secure orders to keep those factories going full time. No employer is going to close up his factory or reduce his help or their time if he can run full staff at full time. Every reduction of staff or time means shrinkage of profits. At the same time it would be folly for him to go on producing beyond his selling capacity. He could, of course, go on making goods that is always hazardous and, besides his banker may have something to say on that point. And readjustment losses successfully. It is encouraging to know this from so high an authority. To hear some of the manufacturers talk one could easily imagine dire disaster was sure to follow a drop in prices of commodities. —Calgary Herald.

### BEAVER RAISING IN ALBERTA

At Edgerton, Alberta, there is a beaver farm which is rather unique which is owned and operated by F. F. Parkinson. On this farm there are over 100 beavers being raised and

when they have multiplied sufficiently in number a portion of them will be trapped and sold for their fur each year. Mr. Parkinson's farm is on the Ribstone Creek, and there have been beavers in the middle of the creek which runs through his farm since he came there three years ago. They have been multiplying so rapidly that he recently secured the privilege of enclosing them and providing feed, and from his observations he is convinced that of all the "sure things" in farming, he has one that at least he will lose no sleep worrying over what the frost may do to the crop.

In the portion of the creek in which the beavers live, there are seven dams, most of which have been there for some time. In all, he is enclosing an area of some fifty acres with woven fencing with the mesh close enough to prevent the smaller beavers from squeezing through. For feed, he intends to sow bank of carrots near the water's edge in several places along the stream. It is said that they are very fond of this root and will dig up whole fields to satisfy their craving for it.

From a standpoint of profit, Mr. Parkinson believes that beaver farming should compare well to wheat farming. On the average, if given the proper conditions, they will more than double their number every year, and with the skins selling at from \$40 to \$50 each, the beaver farm ought to hold a fair profit.

### OKOTOKS CADETS WON A SHIELD

The National Rifle Association of Canada, England, has issued the 1920 results of the Imperial challenge shield competitions which have been annually held throughout the empire since 1910, each team shooting with the miniature rifle on its own range. In

### DECLINE IN COMMODITY PRICES

Discussing the decline in commodity prices, President C. A. Bogert, of the Canadian Bankers' association, addressing the association at its meeting at Toronto last Friday, advised that pressure by the banks on the business community to hasten liquidation should not be of an embarrassing nature. He urged the banks not to bring undue pressure upon borrowers against commodities for liquidation, but asked them to give reason-

able time for gradual absorption of the commodities by the public, thereby avoiding further depreciation and the accompanying disturbance.

Stating that the banks were very much interested in speedy marketing of crops, Mr. Bogert said it was reassuring to know that the value of Canada's exportable food products alone this year would reach very large figures, and growers of products and grain dealers should be offered all possible facilities for the marketing of these products. The fact that Great

### POINTS MADE BY MR. CALDER

"No country in the world has gone as far as Canada in looking after its soldiers."

"High incomes have borne a higher taxation in Canada than in any other country in the world, and until the last session business profits have been taxed higher here than anywhere else."

"Patronage has disappeared from the public life of Canada. I am inclined to think sometimes that a portion of the Canadian public would like to have it back again."

"You will find the Liberal papers denouncing the prime minister as the advocate of the big interests. I would like somebody to tell me the name of the big club they used against the big interests when the Liberals were in power."

"I do not say that we should not control capital. It should be properly controlled in the interests of the state, but to advocate that big interests should not exist is folly. The biggest interest in Canada today, I suppose, is the Canadian Pacific Railway. Does anyone want seriously to see the C.P.R. destroyed?"

"In principle I would be a free trader if all the other countries were, but with other countries protectionist Canada must be protectionist too."

"If you would only get your old party politics out of your minds and get down to common sense I think that this audience could settle the tariff question in a very short time. You are neither free traders nor high protectionists."

"The Liberal believes in tariff for revenue and the Tory in tariff for protection. If you can satisfy yourselves as to what the difference is you can do more than I can."

### HERE'S A GIRL THAT NOT AFRAID

Kincaid, Ont., Nov. 13.—On an 18-inch ledge with a drop of 55 feet should she miss her footing and in a 40 miles an hour wind, Miss Ray McLeod rapidly walked out with two pulls of water last night to fight a fire which had caught in the peak of the roof of the Royal Hotel, where she is employed and held the flames in check till the firemen could give their attention to them and put them out.

### IN OUR FAVOR

Figures given out by the United States Bureau of Statistics show that the migration of agriculturists from one country to the other, has at last been in our favor by many thousands. This report is but the "hand writing on the wall." The day is fast approaching when the untouched wealth of these western provinces of Canada, if better known, will appeal not only to the shrewd and hard-headed American, but to the best type of both continents.

The shrewdest buyers have confidence in the merchant who advertises continually in his local paper. They know that such merchant cannot afford to do otherwise than give a square deal.

Premier Meighen and Hon. J. A. Calder had a warm reception at Regina on November 14; but the premier turned the tables on the hecklers in fine shape.

The Hamilton Morning Times has suspended publication. The high cost of paper and labor being responsible for the suspension.

## \$25.00 Worth of Pathe Records

# FREE

## In Celebration of the Pathe 25 Year Jubilee

COMMENCING SATURDAY, NOVEMBER 13th, Pathe dealers in Vulcan will make this extraordinary offer. This free gift of 25 dollars worth of records will be made to the purchaser of any Pathphone model shown here—a nucleus for your future musical library whether you pay cash or buy on terms. There are no strings or conditions of any kind to this proposition. It is made by the manufacturers through their dealers to celebrate the 25th year of progress of the great French inventors. This offer is good for one week only, or less, should the dealers stock be depleted in less than that time.

Type C \$145

Model Adam \$190

MAKE YOUR OWN SELECTION—  
ALL NEW PATHE RECORDS  
INCLUDED

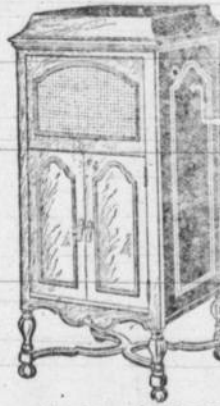

FIRST OFFER OF ITS KIND EVER  
MADE BY THE MAKER OF A  
STANDARD PHONOGRAPH

The manufacturers are anxious to link up more closely Pathe records with the Pathophone. They are made to be played together, although the Pathophone will play other records and Pathe records may be played on other instruments. Together, however, they bring out the full rich musical tone of the Pathe which is distinctive in many ways.

**Department Of Agriculture For Alberta**

In view of the present demand for breeding sows, the Department of Agriculture has arranged with the Live Stock Exchange at Edmonton and Calgary to select the best young sows from those coming to the Stock Yards. Those who wish to secure one or more may write directly to the Secretary of the Edmonton Live Stock Exchange, Ltd., Stock Yards, Edmonton or to the Secretary of the Calgary Live Stock Exchange, Alberta Stock Yards, Calgary. A deposit of Fifteen Dollars (\$15) should accompany the order—balance to be paid on delivery. When ordering, specify weight and breeding desired.

THE DEPARTMENT OF AGRICULTURE will have a representative at the Yards to assist in the selection of the sows.

**HON. DUNCAN MARSHALL,** Minister of Agriculture, **EDMONTON,**  
**S. G. CARLYLE,** Live Stock Commissioner, **ALBERTA.**

**PROVINCIAL NEWS ITEMS**

Apostle Jos. F. Smith, of Salt Lake City, of the Latter Day Saints, is in Alberta and spoke at Cardston Temple.

It is said at the Coast that many farmers from the prairie provinces are pouring into B. C. with a view to locating there on land.

Charlie Chaplin, screen comedian, after a year or two of married life,

is divorced and has paid his ex-wife \$200,000.

Robert Taft, son of former President Taft, will be a member of the Cincinnati delegation in the Ohio House of Representatives, in the new Legislature.

Twenty-nine candidates are in the field for the B. C. Legislature in Vancouver and nineteen in Victoria. Six are to be elected in the former city and four in the latter.

Fire losses in Canada in October as estimated by the Monetary Times amounted to \$2,467,901. The total for the year to date is now \$21,215,299, of \$2,500,000 short of last year's total.

H. W. Winder, of Okotoks district has sold his farm, the N.W. 1/4 of 21-29, to H. Millar. He held an auction sale on Tuesday, November 16.

Frank Patrick, the coast man, who has been making newspaper charges against the Alberta Hockey Association, sidesteps when asked to submit proof before the Alberta amateur governors.

Between ten and eleven thousand people visited the travelling tree exhibit, sent through Southern Alberta by the Canadian Forestry Association. The tour was so successful it will be repeated next year.

Large quantities of wheat and cereals are being moved daily from Alberta. Between four hundred and five hundred cars are being supplied daily by one railway. Complaints of shortage, notwithstanding size of the crop this year, are practically nil.

Oil magnates from New York are in Alberta at present looking over the field and they are very enthusiastic about the prospects for several big oil flows.

Baker Bros., of Carleton Place, are dissolving partnership and will sell their fine bunch of purebred Shorthorn during the Calgary winter sale.

Cattle may be shipped from Canada to Great Britain, but only on condition that they will be immediately slaughtered upon arrival there.

One policeman and two others were wounded recently in Winnipeg when an attempt was made to search the St. Boniface hotel for liquor. The man who did the shooting has escaped.

The users of gas in Calgary are apprehensive as regards the supply of gas. Last week the pressure was at the vanishing point and it was a relief when the weather moderated.

Johns & McKay, of Brant, had a couple of loads of beef in the Calgary market last week.

A campaign for funds amounting to five million dollars for the McGill centennial endowment has been started.

Owners of property in the city of Calgary, sold for taxes, may redeem the same if they wish by paying purchase price, costs and twenty per cent. interest.

A bonus on Canadian bacon in Britain sounds good to the man who has bacon to sell, but at present there are few farmers in Alberta who have hogs on their farms today.

The Farmers Progressive Party will meet in Winnipeg shortly, when addresses will be delivered by Premier Drury of Ontario and the Hon. T. A. Cramer.

A Carmangay man named F. Dayman while at Vancouver recently attempted to commit suicide by turning on the gas in his room.

At the recent meeting of the Alberta Union of Municipalities the convention favored the provinces getting control of their natural resources.

Several Nanton ranchers have joined the Stock Growers Protective Association recently.

There is absolutely no demand for hides and dealers are pessimistic about the business.

During the election campaign you would never have dreamed it was with Germany the United States was at war.

"It felt like a house of cards," is a common expression, and yet you would think a house of cards would not fall if four jacks were underneath.

Pay more attention to the study of Canadian history and have British history eliminated from the curriculum, is the sentiment expressed by the Southern Alberta school teachers association. But a better plan has been suggested which is to make changes in the history teaching method and make the study more interesting by using the history of both countries and particularly that of Canada.

Sale of school lands will be held in Okotoks on November 22.

Farmers in the Lethbridge Northern Irrigation District, by a vote of two hundred and fifty-eight to fifteen, have agreed to bond their land for fifty dollars an acre. The project covers one hundred and eight thousand acres of irrigated land and the cost for constructing the irrigation works will be \$5,420,000.

Great Britain has on hand at the present time three million bales of 330 pounds each, of wool, or nearly two years requirements for the British mills. It is also estimated that there were 528,000,000 pounds of wool in Australia last June and that the new clip will amount to 660,000,000 pounds more.

Commissioner M. Freeman, of Lethbridge, was selected president of the Alberta Union of Municipalities at the annual meeting held recently. The appointment is a very good one, Mr. Freeman being possessed of more than ordinary ability in the matter of municipal affairs.

A branch of the Canadian Bank of Commerce has been opened at Kingston, Jamaica, with Crawford Gordon, recently assistant manager of the Winnipeg branch, as manager.

## R. N. W. M. P. VETERANS

About one year ago, a Division of the Royal North West Mounted Police Veterans' Association, was formed in Edmonton. We started with some 26 members. When the Annual Meeting of the Association was held in the month of September at Vancouver, which for some years past has been the Headquarters of the Association, it was found that the Headquarters of this Division was the strongest Division, with the result that the Headquarters of the Association was transferred to Edmonton. The Headquarters Executive here are asking that all ex-members of the Force to join the Association, as only by strength and mutual co-operation can anything be obtained in the matter of recognition of past services by ex-members of the Force.

The Association is endeavoring to obtain a re-adjustment of the pension that are paid to old members of the Force—as the pensions that they are getting are very strongly rating of the old pay and are entirely inadequate in these times.

Any Ex-Mountie wishing information regarding the Association should communicate with the Headquarters Secretary: P. H. Tucker, Old Parliament Building, Edmonton.

## STEER FATTENING AN IMPORTANT SIDE LINE

Steer fattening should be made an important side line on the grain farms of the prairie provinces. Buildings used for this work need not be expensive, as a cheap frame shed can be made with a single ply of lumber or a straw shed can be erected. Either of these will provide ample protection for good healthy steers. While considerable money has been made from fattening steers on summer pasture the experiments at Scott have shown that steers can be taken off the grass in the fall, put into winter feeding quarters and further profit be realized. In many instances farmers are short of pasture and fattening on grass is impossible, but, nearly every year on most farms there is an abundance of straw and coarse grains that can be utilized for winter feeding.

This feed would reach the ultimate consumer (the fattening animal) with the least cost for transportation and labor. Hay, straw, ensilage, roots, coarse grains utilized in this way would permit farming to become more diversified, and, proper crop rotations would be established on farms that are now almost completely devoted to grain growing. In addition, the manure spread on the land would mean increased crop yields.

The most important reason for fattening steers is that properly handled this side line is profitable. In connection with feeding experiments in fattening steers conducted at Scott, seventy-eight animals have been fattened in three winters. The average profit over feed cost has amounted to \$17.22 per steer or a total profit of \$1313.16. The animals for these experiments were brought in the autumn and sold in the spring and all feed was charged at top market prices. The cash profits from this work were secured in three ways. There was a spread between autumn prices when there is usually surplus of stock selling on the markets and the spring prices when butcher cattle are usually scarce. There was an increased gain in weight made by the animals during the winter and there was an increased value of the animals due to being classed as fat butcher stock instead of as feeders.

One of the great difficulties on western farms is to secure competent help. Steer feeding would provide winter employment for hired help and would permit the farmers paying good wages and thus more efficient help would be maintained throughout the entire year. Every encouragement is being given to increase this line of work. The banks will loan money to farmers for the purpose of purchasing feeder stock. The Live Stock Branch of the Dominion Department of Agriculture have market representatives at each of the several large stock markets in Western Canada. These men issue daily reports on the market situation and these reports are published in the daily papers. In addition every assistance possible is given the intending purchaser in securing a good grade of steer and reduced freight rates are allowed on all stock going back to the farms. The market representatives will also be found of great assistance at the time of disposing of the fat steers.

On the Dominion Experimental Station's steer fattening has been under way for some time and a number of rats have been tested. Any information along this line will be sent free on application to M. L. Tinline, Superintendent, Scott Experimental Station, Sask.

Timothy hay in Alberta is maintaining a high price, selling freely at \$30 per ton.

## A VERY GOOD ESTIMATE

In connection with the anti-British flag incident which occurred in the city of New York at the instigation of a few feeble-minded Irish republican sympathizers, the New York World says editorially: "Most of our people will fail to perceive the valor or the futility of such performances. If that is the way the Sinn Feiners fight England, it is the safest kind of warfare ever invented. If that is the way patriots 3,000 miles from the spot where they might get their heads broken think they are going to free Ireland, their delusion is as ridiculous as their mock heroics. The fact is that these misadventurers are neither good Irishmen nor good Americans. They ought to be rounded up and made to feel the weight of the law."

## FINE BUNCH OF ALBERTA STEERS

Next month the most attractive end of steers which ever left Alberta will be shipped down from the Alberta University to the international stock show at Chicago, which opens November 27. They consist of the purebred calves which were contributed from a number of Alberta breeders which have been fed and fitted for the big show under the watchful eye of Prof. A. A. Dowell, of the university staff, and they are turning out to be a mighty nice bunch. There are two Shorthorns, five Aberdeen Angus and seven Herefords in the load and it is the intention to exhibit them at the Guelph show as well as at Chicago. S. M. Mace, of High River, supplied one Hereford, 18 months old, which weighed 1310 pounds.

The total dry majority for Alberta is 19,248.

## CLEAN UP BY 1937.

The opinion of a prominent Easterner about our National Debt is that if Canada can avoid further borrowing and set aside sufficient funds by way of sinking fund, her war obligations will all be paid by December, 1937. These obligations total \$2,127,481,800, of which \$1,976,608,800 is the principle of war and victory loans issued in Canada and largely held by Canadians. The balance amounting to \$150,873,000 represents the principle of public service loans issued in New York. To liquidate this large liability without making further issues, Canada would have to provide, in addition to sums required to carry on public service and to pay interest on all these loans, an average of more than \$125,000,000 a year by way of sinking fund. Of course as maturities were met, the annual interest burden would be demolished and the task of providing money for sinking fund to that extent would become less onerous.

## CANNOT SERVE TWO MASTERS

Three employees of the Canadian National Railway, who declared to withdraw from their political affiliations and activities as required in a recent official order from the president of the road, have been dismissed. In taking this stand President Hanna, we believe is positively right and the people will approve of this stand. There is no room in the service of our government railroads for men who

Templetons, 142 King W., Toronto

ERRETT KING, Agent

FINED \$200.00

(From High River Times)

Art Cloughton appeared yesterday before Magistrate McCorquodale on two separate charges of a violation of the Liquor Act. The prominence of the defendant and other features of the case were such as to attract a large attendance at the court. In more than one respect the case produced a local record. The trial lasted the entire afternoon and the fine on the first charge was the largest ever imposed in a case of the kind in High River.

The first charge was that of selling liquor contrary to the act, and the story from the evidence of Provincial Constable Holtum and Constable Robson and other witnesses was that on Saturday night last the officers took up their position at the kitchen window of the Cloughton residence, and the blind being up a foot or more, they witnessed the operation of those on the inside.

There were five or more men in the kitchen. Some were playing cards, and some were not; some were drinking whiskey, and some were not, and the police testified that liquor was served and paid for, and this evidence was confirmed by the testimony of one other witness who testified that he had purchased two drinks for which he paid one dollar.

After sizing up the situation from the outside, and having noted the conversation and actions of those on the inside, the officers entered the house, and were received with the greeting, "You're just in time for a drink." They took possession of a bottle containing whiskey and the glass that was in use. These were exhibits in court, and the dwarf size of the glass was the subject of much comment among those in court.

The next move of the officers was the search of the house from cellar to attic, but there was no more liquor found.

The defendant and one other witness gave evidence for the defence, and denied the sale of liquor, or any violation of the liquor law. The magistrate found the accused guilty and imposed a fine of two hundred dollars and costs.

The second charge was that of having a quantity of liquor in other than a private dwelling, and was the result of the operations of Constable Holtum, who testified that some time after the excitement of the first episode had subsided, he alone again visited the Cloughton place and took up a position behind the garage at the rear of the house. Soon three men came out of the house and went up the lane. In a few minutes two of these returned, bearing a sack containing something of considerable weight. They entered the garage, turned on the light, and after placing the sack under an auto they left and went into the house. Constable Holtum went into the garage and secured the sack, which contained seventeen bottles of whiskey. The defendant was then placed under arrest. The accused denied this entirely. The case was dismissed.

### FIRE AT CAYLEY

A destructive fire occurred in Cayley last night about one o'clock, when Mr. Charles Gribble's large barn burned to the ground. How the fire originated is a mystery, but when the alarm was given the flames had gained such headway that it was impossible to save the building. The fire fighting apparatus, consisting of chemical engines, etc., was soon on the scene of action and efforts were confined to saving adjacent buildings by volunteer helpers and only the stable and the house at the rear were destroyed. A day or so before the fire, Mr. Gribble had placed his new Columbia Six automobile in the barn for repairs and it was destroyed as was also a quantity of hay and straw that had been stored in the loft for feeding Mr. Gribble's bulls during the winter. There was a small insurance on the barn and on the automobile, but it will not begin to cover Mr. Gribble's loss. When the news became known people from ten to twelve miles motored in from the country to help fight the

fire and in a short time the place was full of people eager to give a helping hand.

### BLACKIE NEWS

Mr. A. A. Dawes, who left here last week with cattle for Chicago expects Mrs. Dawes to meet him in Chicago and they will go on an extended trip through Florida.

A little excitement was caused here last Monday morning when it was found that two young men of this district had decamped with Mr. Wellman's McLaughlin Six.

In last week's issue it reads there will be a dance at Frankburg on November 26. This is a mistake, but you will not be disappointed as there will be a good dance in the Blackie Auditorium on that date.

We are glad to state that Messrs. Kelly and Andrews, who have been under the weather for some time are around again and attending to their respective duties.

Mr. Geo. Fiske is busy remodelling his residence by raising the roof and adding a storey thereon and when completed will be in keeping with the new residences recently built in that section of Blackie.

Mr. E. J. Wheeler has moved out on to his farm near town, and Mr. Richardson, who recently purchased Mr. Wheeler's town residence has moved in.

The Whist Drive held in the Auditorium on November 19th was a great success, about sixty-five people being present. The prize winners were: Mrs. Kelly, Mrs. O'Neil, Mr. Cochran, Mr. S. Wayant. The hostesses were Mrs. Fiske and Mrs. Davidson, who worked hard to make the evening a success. The next Whist Drive will be held on Friday evening, December 3rd, Mrs. Stackhouse and Mrs. Bloxham hostesses.

On Sunday night about 10 p.m. Tom Kerney, alias Jack Crawford, height 5 feet 10 inches, dark complexion, pale, distinct Irish brogue, wearing shady blue suit, and Verne Tignor, height 6 feet, sharp featured, slightly built, dressed in blue suit, left Gordon McRae's garage with a McLaughlin Six Touring car belonging to Mr. E. Wellman, manager of the local branch of the Union Bank, Blackie. The car had a dark body with motor meter on radiator and light top engine No. 349972, serial No. 22724, with Sask. license plates No. 224-1920. Before leaving Blackie Tom Kerney forged a check for \$20.00 on Gordon McRae, which he cashed at Long Sing's restaurant. Kerney came here to work on a threshing outfit about six weeks ago and had been working at McRae's garage for three weeks. Verne Tignor is the son of one of the prominent farmers in the Blackie district and it is presumed that Kerney influenced Tignor to accompany him on the trip.

The farmers of this district are practically unanimous for the first time in the history of the U.F.A. organization in their request for the formation of a wheat pool, and they will stand behind it to a man. True there were some who were critical of the wheat board last year but they are now determined that the harvest shall in future be marketed co-operatively for that appears to be about the only way they can secure a just price for their grain. Under the present system it would appear to the average layman that there is some influence at work hammering down the price and knowing a little of the history of the grain exchange and the gambling proclivities of its members it does look as if some scheme is on foot to take from the grain grower the crop of 1920 at a figure that means a loss to the average farmer.

A number of people from the Blackie district motored to Okotoks on Monday to attend the sale of parcels of school lands advertised for sale by the Dominion Government. We have not the full particulars but we learn that Section 19-29-25 sold at \$25 per acre. W. J. Evans and another Blackie man purchased the west half Section 11-20-26 was also sold, one quarter going to McHugh Bros. for \$20.00 per acre and a half section going to Turner Bros. at \$50.00. Section 29-19-26, sold at the upset price of \$20, \$19, \$18 and \$17 per acre for each quarter.

J. Montgomery, of Nanton, bought a half section 11-19-26 at \$28 and \$33 respectively, and C. N. Mutton got one quarter for \$25.00 per acre and Cy.

VULCAN ALTA.

PRESENTS  
**MITCHELL LEWIS**  
"TALES OF THE SILVER NORTH"  
Coming Soon, OPERA HOUSE

Wayant got the other quarter for \$28.50.

The school section adjoining Dinton store, section 11-21-26, was sold at a very high price. One of the quarters going to Jack Bresnahan for \$51 per acre, another going to Friend Rhodes for \$50 and the other half section to John Wilkins for \$20 per acre for the southwest quarter and \$55 for the northwest quarter. This is considered a very good price for the land but it is well worth the money and will prove a good investment for the purchasers.

A bazaar and dance will be given in Dinton Hall on Friday evening, December 3, under the auspices of the Women's Institute. Bazaar will start at 6, dance at 8 o'clock. A three piece orchestra will furnish the music and a good time is assured. The admission for supper and dance is only \$1.50. Let there be a large turn out to help along the cause.

Not To Blame.

**75c.****LOCAL ITEMS**

Mr. A. R. Colwell, of the Bluebird Corporation, Brantford, Ontario, was a business visitor in Vulcan on Friday last.

Mrs. Alf. Clayton, who has been visiting with relatives and friends in Saskatchewan, Manitoba and Ontario during the summer months, returned home on Saturday last.

Mr. C. C. Hedley announces a sale by public auction at his farm 11 miles east and five miles north of Vulcan, of all his farm stock, implements and household furniture. If you are in need of anything it will pay you to attend this sale. For further particulars see posters and advt. on another page. C. C. Rebbe will be the auctioneer.

Mrs. Scott, of Calgary, is visiting with her parents, Mr. and Mrs. J. A. Naismith.

Miss McDonald, of Calgary, arrived in Vulcan on Monday to visit with Miss Hoge for a few days.

Mr. Stitt and Mr. Dawson, cable men for the Government Telephones, were in town last week looking over the cables at the local office.

Mr. and Mrs. Priest, of Barons, were week end visitors in Vulcan the guests of Mr. and Mrs. A. F. Vanshaver.

Mr. and Mrs. Greenlie left for Okotoks on Thursday last where they will visit for awhile with relatives and friends.

Mr. Bane, of Brant, is taking the place of Mr. Cardinal at the Home Grain elevator.

The Auction Sale of farm stock, implements and household furniture belonging to Mr. Roy Dean, held on Friday last and conducted by C. C. Rebbe, was very successful and could be termed a cash sale. Any buyer had the privilege of giving notes, but not one was given, everybody paying cash. Everything sold high with the exception of horses, but they fetched a fair price. The total amount of cash realized was \$3,075.00, which

goes to show there is no scarcity of the needful in this district. Mr. Dean was very pleased with the result of the sale.

Mr. Bob Smith returned to Calgary on Saturday, where he had been visiting for a few days.

Dave Churchill, who is spending the winter months in Portland, Oregon, is ill with diphtheria. The latest word received, however, is that he is getting along very nicely.

Mrs. Frank Kothlow, Sr., who has been in Minot, N.D., taking medical treatment for the past five weeks, returned home on Thursday.

Get your Winter Underwear now—A. G. Spooner.

Master Bobbie Marshall entertained about eighteen of his young friends at his birthday party held on Saturday afternoon last and they all had a real good time.

Miss Lewis and Mr. E. Hodge, of Granum, spent the week end in town visiting with Mr. Hodge's sisters, the Misses Ethel and Ella Hodge.

**Pound Notice**

To whom the same may concern—Notice is hereby given that by virtue of power granted under Section 208 of the "Municipal District Act," and of By-Law No. 17 of the Municipal District Act of Municipality of Marquis No. 157, dated April 17th, 1919, one red bull with white spot on right shoulder, branded on left shoulder and on left hind quarter, was impounded in the pound kept by the undersigned on the S.W. Quarter section 4-19-23-4 on the 8th day of November, 1920. Dated November 8th, 1920. M. P. MARSHALL, Poundkeeper.
